## Strategy and Quality

In the i+12 Institute we have developed a **Strategic Plan for 2014-2018** where we have defined the **main areas** on which we intend to **focus our efforts** in the coming years. These main areas are:

Each one of these Strategic Axes can be divided into Strategic Lines and Action Plans.

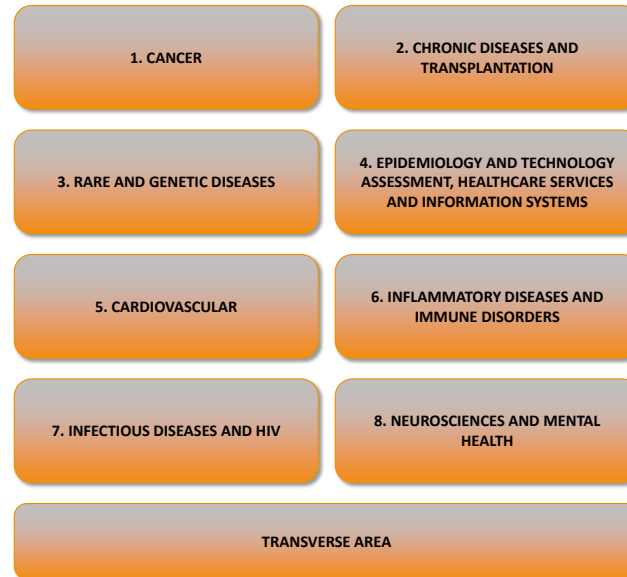

Additionally, we make use of an **IT tool** that enables us to determine the degree of achievement of **our proposed objectives**: Sistema SePIR+12.

## QUALITY POLICY

## Our organization

The i+12 Institute boasts a total of 61 groups distributed among the following 9 main research areas:

The management body that grants the Institute its own legal personality is the Foundation for Biomedical Research of the Hospital 12 de Octubre. This Foundation is responsible for the Institute's entire economic-administrative management.

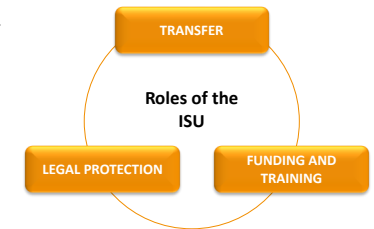

The Institute also features a Scientific Management Area encompassing the following units: Quality and Strategic Planning, Innovation, Project Management, Training, etc.

## Support Services

### INNOVATION

Since 2014, the i+12 Institute has an Innovation Support Unit (ISU) whose main purpose is to develop innovation activities in conditions of excellence and quality promoting the collaboration and cooperation with other research centers and groups.
