

# Human Resources Strategy for Researchers (HRS4R). Fundación de Investigación Biomédica del Hospital Universitario 12 de Octubre (FIBH12O – I+12)

## HRS4R ACTION PLAN

## Introduction

The Human Resources Strategy for Researchers (HRS4R) emerges with the aim of making the research career more attractive for researchers and intends to give them the same rights and obligations in any European Union Member State, independently of the country they live in. The HRS4R is based in the principles established through the European Charter for Researchers, the Code of Conduct for the Recruitment of Researchers and the Open, Transparent and Merit-based Recruitment policy recommended by the European Commission.

Entities adhering to this strategy receive the recognition of HR Excellence in Research. Fundación para la Investigación Biomédica del Hospital Universitario 12 de Octubre welcomes the initiative of the European Commission and the recommendations in the frame of the strategy. Thus, in June 2019, Fundación para la Investigación Biomédica del Hospital Universitario 12 de Octubre signed the declaration of commitment to the principles of the Charter & Code, expressing the interest and commitment to initiate the process in the framework of the HRS4R.

The process to obtain the recognition is a value tool for carrying a self-assessment of the current departments and services of the institution in human resources area, to improve the working conditions for research, making the institution an attractive place to develop a research of excellence. As a first stage in the process, the institution analyzed the strengths and weaknesses of the current practice about the thematic of the Charter and Code and has developed a specific action plan which contains feasible measures towards the implementation of the strategy.

## Strengths and weaknesses of the current practice

From an internal analysis of the current practice, the institution provides the following overview in terms of the current strengths and weaknesses under the four thematic headings of the Charter and Code:

Thematic heading of the Charter and Code	STRENGTHS and WEAKNESSES
Ethical and professional aspects	<p><b><u>STRENGTHS</u></b></p> <ul style="list-style-type: none"> <li>- <b>Legislation allows freedom</b> of thought and expression for institutional researchers.</li> <li>- The <b>Manual of Ethical and Good Research Practices</b>, the <b>Ethic Committee for Research with medicinal products (CEIm)</b>, the <b>Committee on Animal Ethics and Welfare (CEBA)</b> and the <b>Research Committee</b> of FIBH12O – I+12 ensures freedom in research, guaranteeing ethics principles.</li> <li>- The committees <b>ensure compliance with ethical and methodological requirements</b>, as well as compliance with management regulations and</li> </ul>

	<p>applicable laws. Scientists freedom of thought or expression is thus granted.</p> <ul style="list-style-type: none"> <li>- The FIBH120 – I+12 focuses especially on the <b>professional attitude in clinical trials and/or in public funding</b> projects.</li> <li>- The researchers are fully informed of the <b>ethical procedures</b> they must comply and about the regulations, processes and approval requirements from the committees.</li> <li>- The <b>Innovation Support Unit</b> and the <b>Quality and Strategic Planning Unit</b> support researchers on the specific requirements of the sponsors, open calls of public funding and application procedures for patents. The Units also inform to the researchers about IPR and knowledge transfer. Through its <b>Quality and Improvement Plan</b>, the FIBH120 – I+12 enforces quality procedures to ensure good research practices.</li> <li>- FIBH120 – I+12 provide <b>communication channels</b> to increase society awareness on the institution results. The communication tools and procedures are defined in the Communication Plan of the institution.</li> </ul> <p><b><u>WEAKNESSES</u></b></p> <p>Following principles were prioritized in the GAP analysis as the main weaknesses at the institution:</p> <p><b>5. Contractual and legal obligations (-/+)</b></p> <ul style="list-style-type: none"> <li>- The establishment of a proper orientation is pending for FIBH120 – I+12. A fix date for briefing all new hires while handling the compiled documentation about regulation and contractual and legal obligations is needed.</li> <li>- A lack of acknowledgment of the importance of the IPR for a further exploitation or publication of result has been identified in the researcher’s cohort.</li> </ul> <p><b>7. Good practice in research (+/-)</b></p> <ul style="list-style-type: none"> <li>- Clinical researchers find unsatisfactory current limitations of the procedures related to data protection that conflict with standard clinical research.</li> </ul> <p><b>9. Public engagement (-/+)</b></p> <ul style="list-style-type: none"> <li>- Researchers currently don’t seem to appreciate enough institutional support towards the dissemination of research activities to the general public.</li> </ul> <p><b>11. Evaluation / appraisal systems (-/+)</b></p> <ul style="list-style-type: none"> <li>- Currently, there is not a homogeneous and standard procedure to carry out evaluation of the research activities.</li> </ul>

Recruitment and selection	<p><b><u>STRENGTHS</u></b></p> <ul style="list-style-type: none"> <li>- <b>HR Manual of FIBH120 – I+12 and internal procedures for recruitment and selection.</b></li> <li>- FIBH120 – I+12 adequately describes the positions, requirements and functions of the recruitment and the open calls. All calls are <b>disseminated appropriately</b> (web, emailing, etc.).</li> <li>- For internal calls, a <b>selection committee</b> is designed for the evaluation of the candidates. The selection committee evaluates the merits and career highlights of each candidate and carries out a personal interview to gather information on suitability and motivation of each candidate.</li> <li>- <b>Public resolutions</b> of the calls in the website. In addition, all candidates interviewed are informed by mail about the resolution. FIBH120 – I+12 offers support to candidates to solve any question.</li> </ul> <p><b><u>WEAKNESSES</u></b></p> <p>Following principles were prioritized in the GAP analysis as the main weaknesses at the institution:</p> <p><b>12. Recruitment of Early Stage Researchers (-/+)</b></p> <ul style="list-style-type: none"> <li>- The access for researchers returning to a research career depends mostly on the availability of economic resources of individual components and not the FIBH120 – I+12.</li> <li>- In case of availability of funds, the principal investigator applies his/her own criteria for the recruitment of early stage researchers, instead of using a harmonized institutional procedure.</li> </ul> <p><b>13. Recruitment (-/+)</b></p> <ul style="list-style-type: none"> <li>- Currently there is a lack for standard recruitment within FIBH120 – I+12. Thus, researchers access depends on the availability of particular funds and falls under the skew criteria of each principal investigator.</li> </ul> <p><b>21. Postdoctoral appointments (-/+)</b></p> <ul style="list-style-type: none"> <li>- In FIBH120 – I+12 there are not specific rules or guidelines for recruiting and appointing postdoctoral profiles, apart from those specific for national postdoctoral calls.</li> <li>- Postdoctoral recruitment is currently being supported on available calls, or directly from research funds from individual groups. Postdoctoral appointments depend on the feasibility of devoting funds for personnel and/or the existence of specific calls.</li> </ul>
---------------------------	--

<p>Working conditions</p>	<p><b><u>STRENGTHS</u></b></p> <ul style="list-style-type: none"> <li>- FIBH120 – I+12 follows the employment procedures regulated by <b>Spain Laws on public employment</b>, ensuring the research environment follows the regulations in terms of <b>workplace health and safety</b>. FIBH120 – I+12 actively participates with the <b>regional governing bodies</b> in the development of a professional career for all stage researchers and in a regional working agreement for researchers.</li> <li>- FIBH120 – I+12 recruits and selects candidates by their quality and competence, <b>without gender discrimination</b>.</li> <li>- FIBH120 – I+12 tries to <b>promote the career development</b> offering to researchers grants, awards and other recognitions.</li> <li>- Currently, the career advice is sustained by the Scientific Management Area under researchers request. In addition, the <b>research group leaders act as mentors</b>, providing career advice to researchers in all career stages.</li> <li>- The <b>Innovation Support Unit</b> and the <b>Quality and Strategic Planning Unit</b> offer advice to researchers on IPR.</li> <li>- FIBH120 – I+12 frequently organizes <b>internal meetings</b>, promoting the collaboration among researchers.</li> <li>- Teaching is an intrinsic activity in the institution. The <b>Training Unit</b> is responsible for managing the institution's <b>Training Plan</b>.</li> <li>- The <b>Quality Plan</b> includes specific tools for the identification and handling of claims. The Quality Plan establishes the procedures to carry out improvement actions.</li> <li>- The <b>decision-making bodies</b> are elected using a transparent open election procedure. This is oversight and approved by the Government Board. The permanence of decision-making bodies is always temporary.</li> </ul> <p><b><u>WEAKNESSES</u></b></p> <p>Following principles were prioritized in the GAP analysis as the main weaknesses at the institution:</p> <p><b>23. Research environment (-/+)</b></p> <ul style="list-style-type: none"> <li>- The improvement of the facilities and infrastructures depends on the availability of resources in FIBH120 – I+12 and/or external calls.</li> <li>- FIBH120 – I+12 should promote an international research environment, making the institution an attractive centre for world-class researchers.</li> </ul> <p><b>24. Working conditions (-/+)</b></p> <ul style="list-style-type: none"> <li>- Until now, the institution has been limited by regional regulations in the implementation of some of the recommendations of the principle in terms of</li> </ul>

	<p>flexibility and work-life balance policies.</p> <p><b>28. Career development (-/+)</b></p> <ul style="list-style-type: none"> <li>- Currently, the measures promoted by FIBH120 – I+12 for the recognition of the research career are dependent on the availability of funds in the institution.</li> <li>- This limitation means that an adequate professional development is not achieved by all researchers.</li> </ul> <p><b>30. Access to career advice (-/+)</b></p> <ul style="list-style-type: none"> <li>- Currently, there is not a standard procedure that defines the figure of mentors with a senior profile to provide support and guidance for researchers.</li> <li>- Currently, there is not regulated training for mentors and mentees.</li> </ul> <p><b>31. Intellectual Property Rights (-/+)</b></p> <ul style="list-style-type: none"> <li>- The importance of the IPR for a further exploitation or transfer of results is not fully acknowledged by researchers.</li> </ul> <p><b>32. Co-authorship (-/+)</b></p> <ul style="list-style-type: none"> <li>- There is a lack of understanding of the importance of co-authorship among the researchers in the institution.</li> </ul> <p><b>34. Complaints/appeals (-/+)</b></p> <ul style="list-style-type: none"> <li>- Currently there is a need for an impartial and standard procedure to handle the complains and appeals from researchers.</li> </ul> <p><b>35. Participation in decision-making bodies (-/+)</b></p> <ul style="list-style-type: none"> <li>- The participation of young researchers and post-doctoral positions are not contemplated in the composition of decision-making bodies.</li> </ul>
<p>Training and development</p>	<p><b><u>STRENGTHS</u></b></p> <ul style="list-style-type: none"> <li>- FIBH120 – I+12 has a scientific structure composed by Scientific Director, Research Area Coordinators and research group leaders. The research group leaders supervise the work progress and research findings of the research scientists.</li> <li>- The continuing professional development is overseen by the <b>Training Unit</b>.</li> <li>- There is a <b>wide training offer</b> in the institution that contributes to improve capabilities and professional development of the researchers.</li> <li>- Periodically, FIBH120 – I+12 organizes <b>internal seminars</b> for the researchers, promoting their continuous professional development.</li> <li>- The <b>Annual Training Plan</b> compiles a training offer for researchers in all</li> </ul>

	<p>career stages.</p> <ul style="list-style-type: none"> <li>- Annually, FIBH120 – I+12 identifies through surveys the <b>training needs</b> of all personnel.</li> </ul> <p><b><u>WEAKNESSES</u></b></p> <p>Following principles were prioritized in the GAP analysis as the main weaknesses at the institution:</p> <p><b>37. Supervision and managerial duties (-/+)</b></p> <ul style="list-style-type: none"> <li>- In the research groups the supervision and managerial duties are done by the research group leader, assuming a huge bureaucratic burden.</li> </ul> <p><b>39. Access to research training and continuous development (-/+)</b></p> <ul style="list-style-type: none"> <li>- Usually, the professional development of the researchers is widely heterogeneous and depends on initiatives from their own group leaders.</li> </ul>

## OTM-R action plan

The establishment of an Open, Transparent and Merit-based Recruitment of Researcher (OTM-R) policy is a key element in the HRS4R Strategy. FIBH12O – I+12 will support in the OTM-R Package for Research Performing Organizations (RPOs) to implement OTM-R practices in the institution.

The first step for a proper implementation of OTM-R practices was done by an initial review of the current system. The Working Group used the checklist provided by OTM-R Package as a self-assessment tool to determinate the alignment to current practices and identify the GAP and improvement actions. The self-assessment provided the basis for establishing specific actions to OTM-R implementation. Although, there may be some overlap with some of the actions described above, new actions were defined. All the actions defined for the improvement of OTM-R policy are then compiled, as list below:

<b>Proposed OTM-R ACTIONS</b>	<b>GAP Principle(s) and OTM-R Checklist scope</b>	<b>Timing (at least by year's quarter/semester)</b>	<b>Responsible Unit</b>	<b>Indicator(s) / Target(s)</b>

## Implementation

A **Technical Team** has been created for a proper implementation of the process. The team will be responsible for implementing and monitoring the HRS4R action plan. This team will be composed by the following profiles from the Working Group involved in the process:

- Representative of the Human Resources Unit.
- Representative of the Technical Unit.
- Representatives of each of the research categories (Principal Investigator, Senior Postdoctoral, Junior Postdoctoral and Predoctoral).

The Technical Team will be involved in all phases derived from the implementation and monitoring of the HRS4R action plan in the institution. To implement the different actions defined, the following tools will be used:

- Periodic meetings
- Approaching to research community
- Networking
- Analytical techniques
- Benchmarking

The implementation of the HRS4R action plan requires: the annual measure of the KPIs; and the achievement of the defined milestone. The proper annual measurement of the KPIs and the timely definition and development of the milestones, guarantees an optimal implementation and follow-up of the process (see the schedule in the Annexes).

To ensure the proper monitoring and the regular overseeing of the Action Plan a **Steering Committee** has been created. It is formed by the following members also involved in the HRS4R process:

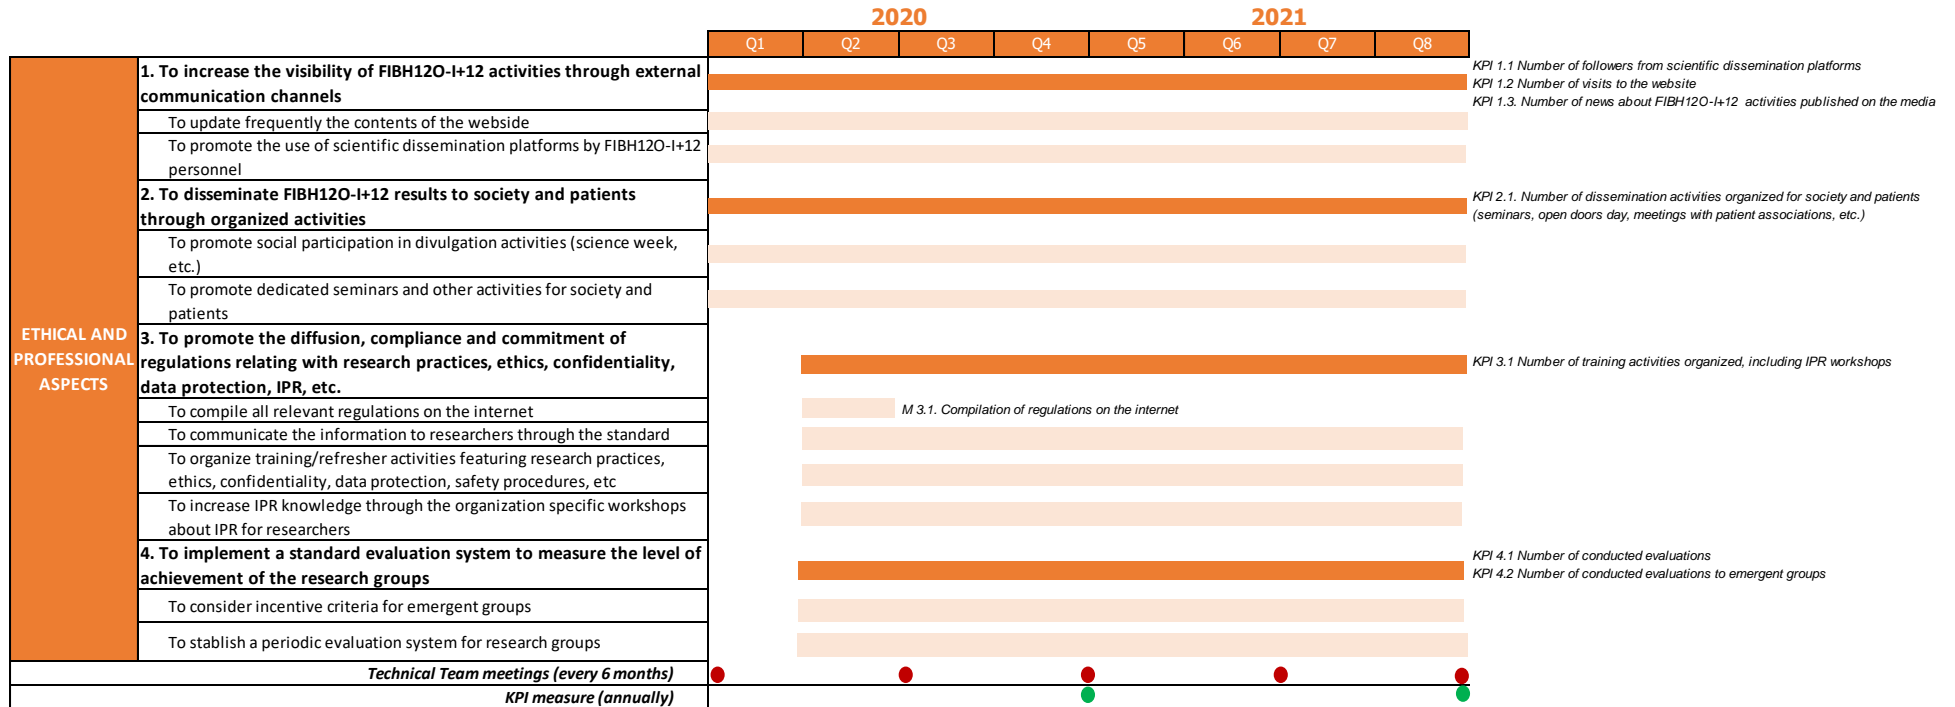

- Management Director of FIBH12O – I+12
- Scientific Director of FIBH12O – I+12
- Representative of the Human Resources Unit

The results of the monitoring by the Technical Team will be annually reported to the HRS4R Steering Committee to analyze possible deviations and to propose corrective improvement actions.

Two years after the implementation of the action plan the Technical Team, supervised by Steering Committee, will carry out a self-assessment of the HRS4R following the European Commission recommendations. The Technical Team will review the results of the action plan and the OTM-R policy and will consider possible adaptations in case of some deviations from the objectives.

		2020				2021				
		Q1	Q2	Q3	Q4	Q5	Q6	Q7	Q8	
<b>WORKING CONDITIONS AND SOCIAL SECURITY</b>	<b>8. To promote internal actions to provide to researches optimal working conditions</b>									KPI 8.1: Specific budget for spaces, equipment and infrastructures KPI 8.2: New spaces, equipment and/or infrastructure enabled for research KPI .3: Number of attended petitions about occupational hazards
	To promote standard and optimal working conditions for all the employees and professional categories									M 8.1: Collective Agreement of the Foundations of Biomedical Research implementation
	To establish specific technical resources for spaces, equipment and infrastructures									
	<b>9. To provide an international and friendly research environment (OTM-R 4)</b>									KPI 9.1: Number of foreign visitor researchers KPI 9.2: Number of internal projects conducted
	To have relevant information available in English to assist and provide advice to foreign researchers									M 9.1: English versions of relevant documentation
	To encourage foreign researchers to apply to FIBH120 – I+12 positions in line with the new OTM-R policy developed									
	<b>10. To define a professional career for researchers at all stages of their career</b>									KPI 10.1: Number of appointed mentors KPI 10.2: Number of mentees
	To contribute to define the professional career for researchers in the frame of Community of Madrid policies									M 10.1: Collective Agreement of the Foundations of Biomedical Research implementation
	To appoint mentors by a standard procedure to provide career advice to researchers									
	To disseminate career advice and professional opportunities from EURAXESS and FECYT, among others									
	<b>11. To promote and recognize the importance of the co-authorship among researchers</b>									KPI 11.1: Number of publications with co-authorship between FIBH120 – I+12 research groups KPI 11.2: Number of internal meetings between research groups
	To consolidate frequent meetings between research groups to promote the co-authorship and the collaborative research									
	<b>12. To implement a procedure for handling suggestion from researchers at FIBH120 – I+12 (OTM-R 5)</b>									KPI 12.1: Number of collected suggestions KPI 12.2: Number of resolved suggestions
	To define a standard procedure for handling suggestions									M 12.1: Procedure for handling suggestions
	To promote the contribution of suggestions in the annual satisfaction survey to researchers									M 12.2: Suggestion box implementation
	To implement a suggestion box for the compilation of suggestions from researchers									
	To inform about the suggestion box and promote its use among researchers									
	<b>13. To increase the participation of young researchers in the internal scientific committees</b>									KPI 13.1: Number of young researchers in the Research Committee
